Spanning Two Frames

Back View
1. Attach the monitor plate to the frame(s) with monitor mount connectors (marked in red). Two plates may be attached on two adjacent frames as seen above. The plate will be flush to the front of the frame(s). Note: Attaching a monitor mount on the front of a room requires different mounting hardware. See the following page for details.

2. Twist the ends of the connectors ninety degrees to lock them in place.

3. Install the fabric graphic with monitor mount cutout aligned over the monitor mount plate. See graphic installation instructions for details.
4. Attach the monitor mount onto the plate with screws. Secure with wingnuts on the back of the plate. When required, the mount may span across two plates as seen in step 1.
5. Attach the monitor mount hook bars onto the back of the monitor.
6. Hang the monitor hooks onto the monitor mount. This may require two people. Secure the safety screws on the hook bars.

Shelf Installation

Shelf Bracket

Shelf

1. Attach two shelf brackets on the inside slots of the frame. Brackets will need to pass through slots in the fabric graphic (not shown above).
2. Set the shelf on top of the brackets.

Optional Shelf LED Installation

Curly Cord

LED Bar

Power Supply

View from Bottom

3. Install the optional LED bar to the bottom of the shelf. The bar snaps into the channel in the front, underside of the shelf. The curly cord connects to the power supply cord through the hole in the back edge of the shelf.

LED Stem Lights

LED Stem Light

LED Light Connector

1. Attach the LED Stem Light to the LED Light connector (marked in red).
2. Insert the connector through the slot in the top of the frame. Twist the ends of the connectors ninety degrees to lock them in place.
